Transition

The transition program at Tyabb Railway Station Primary School offers a comprehensive range of experiences to equip your child with the necessary skills to begin school with confidence, pride and connection to their peers and

teachers. We begin the school readiness program (transition) in term 3 by introducing your child to each aspect of school they will encounter. Each learning experience will involve aspects of investigative play, small group skills, focus sessions and whole class instruction echoing the structure of a regular primary school day.

Technology is embedded into the learning with interactive whiteboards, notebooks, Ipads & computers in each classroom and learning area. A take home map and social story is designed for your child to look over during summer is included in a package from the final transition session.

Tyabb Railway Station

Primary School

What we offer at our school is an environment of quality education and quality care of your child.

The size of our school allows students and families to have a personal relationship with each other.

We have a comprehensive specialist program of Physical Education, Art, Indonesian, Intercultural Studies, Performing Arts, Kitchen Garden, Music and I.C.T. We also have special events in our calendar that cater to a broad range of community interests. Our website has a full list of events.

Our Goal

Tyabb Railway Station Primary School's goal is to develop independent individuals with a strong sense of self-worth.

Students are encouraged to strive towards excellence within a supportive environment which has high expectations.
